

We eliminate the challenges,
you capture the market.

Manufacturing Space: 60,000 sq. ft.

Industry Focus: Commercial Aerospace
Industrial & Commercial
Medical & Biotechnology

Overview:

The Ho Chi Minh City, Viet Nam operation is uniquely qualified for handling projects for engineering services and OEM's from a wide-range of industries including commercial aerospace, medical, industrial and commercial. The equipment in the facility is quite efficient for performing both long standing manufacturing procedures as well as state of the art technology.

Manufacturing Service Capabilities:

- Circuit card assembly
- Cable harness assembly
- Electro-mechanical sub-assembly
- Electromechanical full product assembly

Engineering Service Capabilities:

- Hardware and software & firmware development & test
- ECAD layout
- Mechanical design and drawing
- Product development and test
- Repair and refurbishment

Certifications:

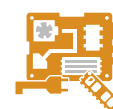

- AS 9100
- ISO 9001
- ISO 13485
- FDA registered

Application Experience:

- Commercial aircraft control
- Cargo system control
- Medical and wireless devices
- Telecom devices
- Audio systems
- Warehouse management systems
- Power systems
- Household appliances
- Semi-conductor machines

Technological Expertise:

- Digital and analog design
- RF communication
- Robotic handling systems
- Thermally controlled systems
- Lasers & optics
- Embedded processing systems
- Electronics modules
- User interface development
- Systems engineering
- Software apps, GUI, firmware, system application development
